

ISI PLANET

ISI Certified Water Treatment Plant

This ISI Certified Water Treatment Plant is designed to meet the stringent quality standards of the Bureau of Indian Standards (BIS). It ensures safe, purified water suitable for domestic, commercial, and industrial applications, while complying with IS 10500 and other relevant codes.

SPECIFICATIONS

1	ISI Certification: Complies with BIS standards for water treatment systems
2	Standards Followed: IS 10500 for drinking water, IS 3025 for testing procedures
3	Applications: Suitable for residential, municipal, industrial & institutional use
4	Treatment Stages: Multi-stage purification including sediment, carbon, softening, RO, UV/UF
5	Build Materials: High-quality FRP / MS / SS with certified components
6	Performance: Ensures removal of physical, chemical & biological contaminants
7	Benefits: Reliable quality, enhanced public safety, government tender ready
8	Customization: Configurable based on source water and application
